

Prosthetic Technology RESEARCH

For Individuals with Arm Amputation

Do you have an **arm amputation**, above or below the elbow?
You must be over age 18.

If so, please consider joining a **Focus Group** with a small group of people to **discuss** your experience with prosthetics and also to **learn about** some new prosthetic technology currently in development.

This will require one visit to the University of Pittsburgh to discuss prosthetic technologies and to complete a questionnaire. The visit will last no longer than 3 hours. We will pay you \$40 for study completion.

If you are unable to participate in the focus group, you may be able to complete an **Online Questionnaire** instead.

Please contact **Lauren Wilcox** at **412-383-1077** for information.
